Captain Brueggemann, according to the official count as returned by the election judges, received 46 more votes than aid Young.

CHRISTIAN - SCIENCE SERVICE. Fifteen Thousand Attend the Aunual Communion in Beston.

Mechanics' Hall to-day, the three congregations aggregating over 15,000 persons. Each service was impressive, especially in the silent communion, when the entire

of Doctor Constantine Hering, one of the founders of homeopathy, officiated as first ond reader.

There was no departure from the order of service followed at previous annual communions in the mother church, and it closely followed the service in the individual churches of the denomination.

The sermon was a compliation of Bible readings, with several selections from the Christian Science text-book. Before each service was brought to an end Professor Hering read a letter from Mrs. Eddy, in which she professed a love for her church and invited communicants to visit her at her home at Concord, N. H.

Many thousands of the Scientists will make the pilgrimsge. It is estimated that about 18,000 members of the denomination have come here to attend the services and the Mechanics' building, which covers several acres, is entirely devoted, in a business way, to the accommodation of the visitors. Admission to the mother church, which is situated only a short distance from Mechanics' Hall, was reserved to members to-day, The communion services to-day, however, were of a public character. service followed at previous annual comto-day. The communion services to however, were of a public character.

REFUBLIC SPECIAL.

New York, June 27.—Eggs-Receipts to-day, 7,129 cases; for the week 65,261 cases; complaints were heard to-day as to the quality of the arrivals, which were in marked contrast to those exhibited in the early part of the week and probably because of a heavier proportion of far West and southerly sections of the Central West, Michigan and Minnesota packings still having the call in the trading over goods from other sections of the ame nominal grade. The sections of the came nominal grade. The sections of the section as it is becoming mee maintener probably will be a section of the section as it is becoming mee methods profitable, with the exercise of proper individual judgment in buying goods. Quotations unchanged.

Philadelphia, June 27.—Eggs steady, but quiet; fresh near-by Hige, loss off; do, Western 1728 Iffe; do. Southern 149 Iffe; do. Southern 149 Iffe; do. Southern 149 Iffe; do. Southern 149 Iffe; and Kansas City. Mo. June 27.—Ergs firm; Missouri and Kansas, cases returned. Illée doz; new souri and Kansas, cases returned. Illée doz; new

ZINC AND LEAD District Value Increased in Face of Decreased Shipments.

> REPUBLIC SPECIAL.
> Joplin, Mo., June 28.—The first six months of 1903 ends with the district total value an increase of \$391,432 over the first six months of 1802. This was reached, too, with the shipments of zinc 13,662 tons and of lend 1,576 tons less than the same period of last year. Zine has averaged in price \$31 and lead \$54.30 per ton, against \$28.48 for zinc and \$43 per ton for lead the first half of last

year.

The increase in values is largely due to the fact that the district has produced less ore than formerly—that it has produced only sufficient to supply the demand for the perculiarly high-grade ore of this district, the highest-grade zinc ore known to commerce. The principal cause of the decrease in the output, however, is atributable alone to the heavy spring and summer rains, the truth of which is verified from the fact that the output the past week exceeded the subment heavy spring and summer rains, the truth of which is verified from the fact that the output the past week exceeded the shipment some 250 tons, and it is a safe estimate that from now on the output will average equal to the same period of last year.

Old mines pass out and new inlines come in every year, but this year the new mines are held back in the course of development work by the increased volume of water in the ground. This is being overcome, and the outlook is that during the latter half of 193 the output will steadily advance until at the end of the year, in a total year's tonnage. It will be necessary to increase the average only 250 tons per week the balance of this year to accompaish this, as the last half of last year to accompaish this, as the last half of last year the output declined. While in numerous cases new mines were checked in the process of development, the old mines have been equally checked in output from the same cause, but the mines are now being unwatered, and as each is drained it becomes easier to drain others.

The highest price paid for zinc ore was \$10 per ton on a straight bid, the assay has is ranging from \$5 to 37 per ton of 60 per cent zinc. Lead ore advanced during the week \$1 per ton, closing strong at \$61.50. A year ago zinc sold at \$5 and lead at \$46 per ton.

Following are the sales of zinc and lead in nourth as a same and the sales of zinc and lead in nourth as a same and and the per ton. per ton.

Following are the sales of zinc and lead in bounds by the companies and individuals owning land or controlling first leases in the various camps of the Jopan district for the week ending June 27, 1983;

REPORT. HAPPENINGS IN ILLINOIS CITIES AND TOWNS.

## WABASH TRAIN TEARS MAN INTO FRAGMENTS

Remains of John Burns Are Found Strewn Along the Railroad Track.

GEORGE BURNSIDE INJURED.

Will Yager Is Victim of Third Accident Within Twelve Hours Near Edwardsville.

There were several rallway accidents in might and Sunday. Early Sunday morning parts of the body of John Burns of Alton were found along the Wabash track, between Edwardsville and Carpenter. Burns had been employed in the construction camp of D. J. Griffith, working on the Big Four cut-off.

and been employed in the construction camp of D. J. Griffith, working on the Big Four cut-off.

On Saturday night, he drew his wages and went to Carpenter. It is presumed that he was run down by a fast mail train while intoxicated. The body was torn into small fragments and strung along the right of way for three-quarters of a mile. It required half an hour for Deputy Coroner C. E. Hoskins and his assistants to collect the remains. The inquest resulted in a verdict of "death while on the track in an intoxicated condition."

Sunday afternoon George Burnside, a molder employed at Granite City, was struck by No. 9 westbound passenger on the Wabash near Venice. Burnside was sitting on the end of the tie watching passing trains and did not notice the passenger. He was taken to Edwardsville last night.

Westbound passenger No. 63 on the Hilmois Terminal was deralled Saturday night three miles west of Edwardsville. The entire train left the track and the first passenger car telescoped the engine tender. The passengers escaped with a severe shock, but the engineer, Will Yarer, of Edwardsville, was thrown through his cab window. His back, head and left arm were injured. A temporary track was bullt around the wreck, and traffic was resumed last night.

Edwardsville Notes.

Bandied everything on the farms and has already.

Congressman Rodenterg has taken the matter in hand and has aircady distributed a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a large quantity of hay, but much more is a l Edwardsville Notes,
